## Profile

---

Cloud & Backend Engineer with hands-on experience in designing and deploying scalable, cloud-native applications on AWS. Skilled in Python (Django/FastAPI), infrastructure management, and CI/CD pipelines. Proven ability to build and manage production systems, optimize cloud costs, and work with international clients across distributed environments.

## Education

---

**Ramakrishna Mission Vivekananda Centenary College** Jul 2022 – Jun 2025  
*B.Sc. in Computer Science Hons.*

- CGPA: 8.68

**Ramakrishna Mission Vivekananda Centenary College** Aug 2025 – Present  
*M.Sc. in Computer Science*

- CGPA: Ongoing

## Certifications

---

**AWS Certified Cloud Practitioner (CLF-C02)** Nov 2025  
*Amazon Web Services*

- Verified foundational knowledge of cloud concepts, security, technology, and billing within the AWS ecosystem.
- Credly badge - [Verify](#) 

## Experience

---

**IoT Intern - ** Koramangala, Bangalore  
*alrium pvt. ltd.* Dec 2023 – Jun 2024

- Developed a real-time IoT-based Smart Lift Monitoring System integrated with AWS cloud services
- Designed dynamic WiFi-based communication module for seamless device connectivity
- Implemented OTA updates and real-time synchronization between devices and cloud infrastructure
- Improved system responsiveness and enabled remote monitoring capabilities

**Cloud & Backend Engineer** Baranagar, Kolkata  
*Vigilantia Praesidium Pvt. Ltd.* Apr 2025 – Jun 2026

- Designed and deployed full-stack web platform using Django and AWS
- Architected cloud infrastructure using AWS EC2, S3, RDS (Aurora), IAM, and VPC
- Implemented CI/CD pipelines using GitHub Actions, reducing deployment time and manual errors
- Containerized applications using Docker for consistent and scalable deployments
- Optimized cloud resource usage and reduced operational costs using AWS Cost Optimizer

## Cloud Engineer

*alrium pvt. ltd.*

*Koramangala, Bangalore*

*Jul 2025 – Mar 2026*

- Managed and deployed AWS-based infrastructure for international clients (USA, UK & Australia)
- Developed and maintained backend systems integrated with cloud services (EC2, Lambda, RDS, S3, SNS)
- Collaborated on .NET-based applications and cloud architecture improvements
- Automated workflows and deployments using GitHub Actions
- Ensured high availability and performance of cloud-hosted applications

## Skills

---

- **Languages:** Python, SQL, JavaScript, C, C++, Java
- **Frontend:** React, Tailwind CSS
- **Backend:** Django, FastAPI, REST API Development
- **Cloud & DevOps:** AWS (EC2, S3, RDS, Lambda, VPC, IAM), Docker, CI/CD (GitHub Actions)
- **Databases:** MySQL, PostgreSQL, MongoDB, DynamoDB
- **Core CS:** Data Structures & Algorithms, OOP, OS, DBMS, Computer Networks
- **System Design:** Microservices, API Design, Scalability
- **Security:** JWT, OAuth, API Security
- **Tools:** Git, GitHub, Linux
- **Practices:** Problem Solving, Requirement Analysis
